## Year 12

**Headstart courses are 4 or 5-day residential courses at a leading UK university for Year 12 students.** There is a wide range of STEM courses including, but not limited to; Chemical Engineering, Computer Science, Oceanography and Marine Biology, Nuclear Physics, Life Science and Broad-Based Engineering. The courses will give students an insight into university life, it will give them the chance to connect with professionals, such as lecturers, graduates and technical specialists whilst developing essential skills like problem-solving and team work, all whilst developing their knowledge of a subject they feel passionate about and helping them decide if it is something they want to pursue for a career. More information about the different courses that are running next summer can be found here: <http://www.etrust.org.uk/headstart/courses>
